

About the Symposium

The interdisciplinary Symposium is traditionally hosted by Çankaya University that examines issues related to progress in industry, academic and competitive technology interaction. Well-known Keynote and Invited Speakers will share their views on these topics with the participants. The theme for the Sixth Symposium has been designated as the interaction between technology and society.

The Symposium is bilingual in Turkish and English.

All information and developments in connection with the Symposium will be kept current at the web address mts6.cankaya.edu.tr. All potential participants are requested to inform the Organizing Committee about their audio and visual requirements.

Certificates confirming attendance will be delivered to participants upon request. Accommodation possibilities are available on the Symposium website for visitors from outside Ankara.

Call for Papers

Participants who wish to present a paper at the Symposium in one of the subject areas listed below should submit their work in the format announced on the Symposium web page within not more than 6 pages before February 22, 2013. If this proves to be impossible contributions may also be emailed to mts6@cankaya.edu.tr. The contributions will be classified in one of the headings or their related fields below and examined by Reviewers. Only papers that have been prepared in accordance with the format specified in the web page will be considered. Revisions may be required. Presentation of papers will be arranged either in oral or poster format. All accepted papers that have been presented by their authors will be included in the Symposium proceedings.

Please note when submitting papers from the website that the following information must be clearly indicated:

- The full name of each author, their affiliation, address, phone and fax numbers and email addresses
- Code for the paper subject or its closest related designation
- The author who will present the paper and the name of the corresponding author if that is different

Registration Fees:

Full participants: 150 TL

Student participants: 75 TL

A number of papers that will be selected by the Scientific Advisory Committee will be considered for publication in the Çankaya University Journal of Science & Engineering.
